Record Map of Survey No. 1220  
 Instrument No. 922330

**NOTE:**  
 We drove 6 ft. long galvanized steel fence posts alongside each monument set, where practical.  
 The section and section subdivisional lines shown are protracted for general information only.

**NARRATIVE:** This survey was performed at the request of Jim Walker, Assistant County Road Supervisor. The purpose of this survey was to delineate an additional area for a crushed rock storage site lease, as shown hereon.  
 A search was made of the available records pertaining to this survey. Field measurements were made to locate the existing controlling monuments of Record Survey No. 1220, as shown hereon. New monuments were set at locations approved by Mr. Walker and Bill Towell, the land owner, as shown hereon. I found no unusual conditions during this survey.
