NOTE: The property lines and section subdivisional lines shown are approximate.

NARRATIVE: This survey was performed at the request of Jim Walker, Assistant County Road Supervisor. The purpose of this survey was to delineate an area for a rock quarry site lease. Also, we were to locate the existing access road leading from this site easterly to the east line of the Towell property and northwesterly to the existing County Rock Quarry Site Tract 1, as shown on Record Map of Survey No. 1272.

A search was made of the available records pertaining to this survey. Field measurements were made to locate the existing access road and the NW corner of Section 32, which I monumented from original evidence in 1973. New monuments were set at locations approved by Mr. Walker and Bill Towell, the land owner, as shown hereon. I found no unusual conditions during this survey.
