

**3RD AVE. - JOHN DAY  
MONUMENT REPLACEMENT  
MARCH 1998**

**NARRATIVE**

This survey was performed at the request of the Oregon Department of Transportation. The purpose of this survey is the replacement of monuments destroyed during the construction of new curbs and sidewalks for the "3RD AVENUE (JOHN DAY) - M.P. 162.70" project, July through October, 1997.

This survey is based on the control survey by the Oregon Department of Transportation, Grant County Map of Survey No. 1399.

In order to perform this survey, the relationship between found monuments based on the coordinates as provided on said M.O.S. 1399 were compared to the relationships as shown on the pertinent maps of survey (see REFERENCES) and no significant differences were found. The monuments were then replaced based on the coordinates shown on said M.O.S. 1399.
