## LEGEND

- ● Corner Evidence Found
- ⊙ corner set by Survey
- property line posted with 6' Steel posts & U.S.F.S. Signs 54-2
- [ ] Bearings and distances of record by James Hambleton LS 645 C.S.# 481 1968
- ( ) Bearings and distances of record by original GLO Survey

## NARRATIVE

This survey is a closed traverse by T-16 theodolite and DI-4 EDM, and T-1 theodolite and 300 ft. tape, made by Jackson & Prochnau, Inc., P.O. Box 177, Albany, ORegon 97321. Basis of bearings is a solar observation. The original survey of the subdivisional lines of the township was made by Herman Gradon in 1884. Mineral Survey NO 617 was originally surveyed by John Hagel in 1904, Mineral Survey NO. 709 was originally surveyed by IRA Hoffman in 1908, and Mineral Survey NO. 459 was originally surveyed by Charles Foster in 1902, all through the U.S. Surveyor General's Office. William Wells, LS 1106, remonumented corners of the Butcher Boy lode from existing evidence in 1978.

"I, James W. Prochnau, a registered land surveyor in the State of Oregon, hereby certify that this plat and the notes hereon, or attached, are a correct representation of a survey I performed during June through October, 1982 for the U.S. Forest Service, in accordance with the statutes of the State of Oregon and with the Articles of my Contract."
